In the same spirit of romance and devotion that Czar Alexander III commissioned the first Imperial Egg from Peter Carl Faberge to present to his wife, Faberge Co. has created an exclusive fragrance to honour Her Serene Highness Princess Grace de Monaco.

Recognized the world over as an icon of feminine beauty and style, HSH Grace de Monaco possessed an irrepressible charm and elegance that translated clearly not only on the silver screen but in her personal life as well

The fragrance is presented in a superbly designed emerald green crystal egg, hand crafted by Compaigne des Cristalleries de Saint-Louis, Europe's most renowned artisans of fine crystal.

Nestled in the egg, is an exquisite crystal flacon with a stopper hand painted in 22-karat gold.

The egg's design is inspired by the original Faberge Serpent Clock Egg which resides in the
